## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by White (7,125).

White (7,125) shows a neckrest comprising a retaining rod (C) connected to a backrest shield (a) via a movable connection and can be tilted approximately 30 degrees in a vertical plane with respect to a surface on the backrest, and a guide sleeve (H) mounted on the retaining rod (C) to be slidingly shiftable to approximately 200 mm on the retaining rod.

With claim 5, a joint (h) is configured to connect the guide sleeve to a headrest, wherein the joint has a rolling element and a fastening device.

### *Allowable Subject Matter*

3. Claims 2- 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Remarks***

The examiner has reviewed and considered the applicant's comments in the Amendment, filed on April 28, 2003. It's the examiner position that claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by White (7,125). The applicant has argued that the amendments to claim 1 have overcome the prior art rejection of claim 1. The examiner disagrees with this argument. It is best interpreted that the prior art of White (7,125) shows a neckrest comprising a retaining rod (C) connected to a backrest shield (a) via a movable connection (C) and can be tilted approximately 30 degrees in a vertical plane with respect to a surface on the backrest, and a guide sleeve (H) mounted on the retaining rod (C) to be slidably shiftable to approximately 200 mm on the retaining rod.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

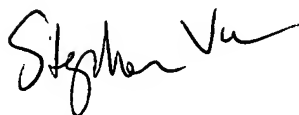

Art Unit: 3636

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
